

## CARLTON CLAIMS WESTERN UNION HAS AUTHORITY

### Specific Permit to Lay Cables in American Waters

### NAVY DEPARTMENT HAS PREVENTED

(By The Associated Press)  
NEW YORK, Nov. 23.—Newcomb Carlton of the Western Union Telegraph company declared tonight his company has general authority under an act of congress to lay cables in all navigable waters in the United States and a specific permit from the secretary of war.

Mr. Carlton made this assertion in a statement issued in connection with his company's application in the District of Columbia courts for an injunction to restrain the secretary of navy from interfering with his plans to extend its telegraph lines from Miami to Miami Beach.

"Notwithstanding the unquestioned right of the telegraph company to improve its system," the statement added, "the navy department has for months arbitrarily interfered with the progress of the work by force of arms and stated if the cable was laid they, the navy department, would immediately cut it. We are informed this action was taken at the request of the state department, although the state department has no jurisdiction over the extensions of the telegraph system."

"We have made diligent inquiry in an endeavor to ascertain what objection there was to our proceeding with this work and we have been met only with the repeated promise of the state department that they would at once straighten out the matter. We are completely in the dark except that we now know that the power of the armed forces of the United States has been used to prevent the lawful carrying out of work authorized by congress."

"It is because of this action that we are now seeking the protection of the courts in an effort to ascertain whether autocratic methods can prevent extension of telegraph service."

Baker Gives Out Statement  
Washington, Nov. 23.—Secretary Baker announced tonight he had revoked permission granted the Western Union Telegraph company last May to lay certain cables at Biscayne, Miami, Fla. The permit was issued by the district engineer at Jacksonville, Fla., and Mr. Baker directed its withdrawal tonight.

Mr. Baker made no explanation of his action. The announcement followed, however, the statement in New York tonight by Newcomb Carlton, president of the Western Union company that his company had not only rights granted by act of congress but specific permission of the war department to do certain cable work near Miami with which the navy department has for months arbitrarily interfered, at the request of the state department.

## CAMPAIGN DEFICIT OF \$1,500,000 IS CLAIM OF CHAIRMAN

### Hays Says That Much Needed to Pay Bills Contracted

### HOPES RESPONSE WILL BE LIBERAL

(By The Associated Press)  
NEW YORK, Nov. 23.—An appeal for contributions to make up a deficit of approximately \$1,500,000 in the campaign fund of the Republican national committee was sent out tonight by Will H. Hays, chairman.

The appeal called attention to the report of the committee's treasurer filed yesterday, pointing out that although the buying power of the dollar was less than in 1916, the 1920 campaign had actually been conducted at less expense than the Hughes campaign.

Mr. Hays expressed highest praise for the spirit of the Republicans during the campaign. More than 50,000 individuals contributed about \$2,000,000, he said.

The presidential campaign cost approximately \$3,400,000, exclusive of pre-convention expenditures, he wrote, leaving a net deficit of nearly a million and a half. This, he declared, he hoped might be promptly made by popular subscription in amounts less than the \$1,000 limit set during the campaign.

It was apparent before the election that the \$1,000 campaign would result in an amount equal to our budget," the statement continued.

### Not Wise to Change Plans

"It was not wise to risk any substantial change in the plan. It was decided we would go thru with every economy consistent with efficiency and after the election continue the raising of the money until any deficit was met."

"Of course, the easiest way would be to appeal to a limited number of generous Republicans, who could give substantial amounts. This could have been done before election. It could be done now, but this policy I am unwilling to adopt except as a very last resort."

Addressing editors of Republican newspapers the statement declared the committee "would have been gratified naturally had it been possible to raise all the money by small gift methods. This, however, was hardly to be expected as this has been the first real effort in that direction."

Contributions, which might be considered in the light of a "Thanksgiving offering for the return to a certain safe, sane, constitutional progressive government," he said, should be sent to Fred W. Upham, treasurer, or James G. Plaine Jr., Eastern Treasurer of the Republican National committee, 19 West 44th street, New York.

## MARINES WOULD LIKE TO GET OUT OF HAITI

### Is Hard Life for Youngsters Who are Stationed There

### HAITI IS NOT HEALTH RESORT

(By The Associated Press)

PORT AU PRINCE, Haiti, Nov. 16.—There is no doubt of the fact that many of the 1,300 marines on occupation duty in Haiti are sick of the job, they want to go home or somewhere else. It is a hard life for youngsters who are sent into the mountain regions.

Often they are away from post for weeks and they declare they undergo many hardships, the least of which is lack of ice.

Since the first session of the naval board inquiry the marines have been hearing from home folks, anxious to know if they are taking part in "indiscriminate killings." The marines contend they are on road duty and then are held up at home as rough men with the gun.

Major General Neville a member of the naval board of inquiry inspected the fighting plant here and found many things to commend, but declared it was not properly equipped. This, he found, was particularly true as to hospital facilities.

Haiti is not a health resort and there is much disease. The brigadier commander and his staff have made every effort to keep intestinal eating away from the marines, but with almost every shop selling it the task is difficult. The principal native drink is rum, which, marines who have tasted it say, it is powerful enough to drive a motorcycle.

## BROTHERHOODS TO MAKE APPEAL FOR ADJUSTMENT BOARDS

### Want National Boards for Settlement of Their Grievances

### AWARDS HAVE APPLIED UNEVENLY

(By The Associated Press)

The request by the brotherhoods for restoration of boards of adjustment according to W. G. Lee, president of Brotherhood of Railway, Airline and Steamship Employees, came from the fact that an award by the labor board had applied unevenly.

## COURT TAKES UP EFFECT OF BONUS SYSTEM OF PACKERS

### Would Have to Increase Prices, Says Expert

### WOULD BE PASSED ON TO CONSUMER

(By The Associated Press)  
CHICAGO, Nov. 23.—The effect a bonus system would have if put into operation in the packing industry was taken up today at the hearing before Federal Judge Samuel Alschuler in the demands of more than 200,000 packing company employees for a wage increase of \$1 a day.

S. S. Marquis, director of the educational department of the Ford Motor company, Detroit, detailed his company's bonus system, but said "on the basis of the figures for expenditures and receipts presented by the packers such a system could not be put into effect without first increasing the cost of meat or decreasing the price paid for cattle."

Mr. Marquis using the packers' figures as a basis for computation, said if they paid a minimum bonus of \$10 annually, as did the Ford company, there would be a deficit. He said he thought the Ford system impracticable for packing companies "because in the case of an automobile company one man could raise or lower the price of high commodity to meet the bonus, which is taken from the profits while in the packing industry competition made this inadvisable."

C. L. Harle, Chicago representative of the Iowa Farm Bureau and Corn Belt Meat Production association asked Judge Alschuler not to grant the increase on the grounds that "it would be passed along to the producer and place an extra burden on the farmer and livestock grower."

The packers presented a quantity of food marked with the prices at which it was purchased today. These prices, they said, were an average of 38 percent lower than the government fair price list October 1. Cornmeal, tea, sugar, condensed milk, tomatoes, cheese, bread and corn were included.

The wage hearing was conducted several months ago but was reopened yesterday at the request of the packers who maintained reductions in living costs should be considered. Thus far the hearing has been taken up with presentation of the packers' side. The employees' attorneys will make their rebuttal tomorrow.

## FARMERS WANT FUND USED FOR CREDIT

Claim U. S. Grain Corporation Made \$50,000,000—Condition of Wheat Market Caused By Grain Gamblers.

(By The Associated Press)  
Spokane, Wash., Nov. 23.—Declaring that the United States grain corporation during its existence made profits of \$50,000,000 which probably belongs to the producers, a conference of several hundred farmers of Eastern Washington, Eastern Oregon and Northern Idaho today adopted resolutions urging the secretary of the treasury to use that fund thru the federal reserve board or other agencies to extend credit to farmers by providing a revolving fund.

The resolutions, which declared the condition of the wheat market "is largely a result of grain gamblers' conspiracy," urged legislation eliminating option trading in food products, declared for a tariff on Canadian wheat, urged federal reserve banks to renew all ninety day paper and urged farmers to take out memberships in cooperative grain growers associations.

Restoration of the war finance corporation was advocated. Senator Miles Poindexter addressing the conference advocated organized marketing thru a national farmers agency.

### OTHER CHANGES ARE MADE

(By The Associated Press)

SPRINGFIELD, Ill., Nov. 23.—The public utilities commission today made an order modifying the service connection and moving charges that were put into effect by the telephone companies of Illinois in 1918 under order of the Postmaster General and while the telephone systems were under federal control.

In lieu of the charges authorized by the postmaster general, the commission permitted the telephone companies to make a charge of \$3.50 for new installations and for re-connecting a telephone that has not been in service for sixty days or more. Where an applicant moves into premises in which a telephone previously had been in service and re-connection is made within sixty days from the time the telephone was disconnected. The commission permits no charge to be made.

A charge of \$3.50 was authorized for the installation of each new trunk line connecting a private branch exchange with the Central office.

The commission also authorized a charge of \$3 to be made for changing types of telephone in the subscriber's premises where the change is made at the request of the subscriber. Under direction of the postmaster general during the war a charge of \$1.50 was allowed for changing the name of a subscriber in a telephone book. This charge was disallowed by the commissioners.

## OPENING OF DEBATE ON IRISH HOME RULE ATTRACTS ATTENTION

### Many Members of the House of Commons are Present

### LORD BURKEHEAD INTRODUCES BILL

(By The Associated Press)

LONDON, Nov. 23.—Opening of the debate on the Irish home rule bill in the house of lords today afforded a notable contrast to the apathy displayed in the house of commons. The upper house was crowded and many members of the commons, including Premier Lloyd George, Andrew Bonar Law and Sir Edward Carson, heard Lord Burkehead's speech introducing the bill.

Lord Burkehead read a letter from Sir Edward Carson in which the Unionist leader declared he to accept the bill.

Lord Burkehead suggested that a secondary motive for the introduction of British officers in Dublin Sunday was the influence it would have on this debate and declared there was evidence Sinn Fein extremists were being beaten.

"Strange as it might seem," he said, "I think this is a favorable opportunity to effect a settlement because the Irish people are sick and tired of the horrible reign of terrorism." The Earl of Dunraven on the ground that the bill was not supported by the great majority of Irishmen and afforded no prospect of permanent settlement, moved its rejection.

larger than in several previous campaigns and who can say that Chairman Hays and his associates didn't do a fine job?  
 Ex-Senator Lewis is said to be opposed to any present plans for the re-organization of the Democratic party. He says that there is no issue just at the present time and consequently no opportunity for effective reorganization. A party without a "paramount issue" is in a bad way and the comment by Mr. Lewis is one of the wisest utterances of his that has been chronicled.

## GREATER NEED FOR ORGANIZATION

Now that a falling market has wiped out profits in farming operations and made entries on the other side of the ledger for farmers, there is increased interest in the farm bureau. Owing to these conditions it is expected that there will be a record attendance at the annual luncheon and business meeting which has been set for the first week in December.

Some changes in constitution are planned which will increase the efficiency of the bureau. Certainly the problems which confront those who engage in agricultural and livestock industry are such that there is more need than ever for the close cooperation that the farm bureau makes possible.

## THE GREAT BLESSING

Walt Mason is a real philosopher, as his prose poems so frequently prove. Yesterday this Kansas poet-philosopher had reasons to lay emphasis upon the value of good health. He had evidently just recovered from a combination of annoying ailments and so is in a position to testify that other things amount to very little by comparison with health. It is in truth the greatest of blessings and as Walt Mason says, the man who has good health should not be disturbed about wealth or position, or above all, over the difficulties that are now presented to business men in these reconstruction days.

turbed about wealth or position, or above all, over the difficulties that are now presented to business men in these reconstruction days.

## TAKING COUNSEL

Judging from the list of names published indicating men who are to confer with President-elect Harding concerning the league of nations program and other matters of importance the pre-election promise is to be carried out to the letter. The people will read these days with genuine satisfaction as they realize that the incoming administration purposes to have the very best advice possible on the questions that are so intimately related to the welfare of the nation and the people. With the composite judgment of these men to assist him, the president would not be likely to err.

## THE BUYER COMES INTO HIS OWN

There is likely to be a return of the art and science of salesmanship which had been pretty nearly lost sight of in the riot of business in the last year or two. As a banker recently said, "It is the buyer's market now instead of the seller's." There is plenty of money in the country and it will be available when the buyer is thoroughly satisfied that the prices asked are correct and in line with the changing conditions.

Until within a recent date, in most lines the seller has been able to choose his customer and in most instances has made allotments to his customers of more than the amounts desired. Salesmen have been kept off the road and assigned to other tasks because there was no need in hunting up new customers or making special efforts to sell to the old ones. Now comes the buyer's chance, with the tables just reversed from what they have been. In some lines there is still a shortage either natural or artificial, but in the great majority of instances the purchaser now secures just as much as he wants. And in many instances price offers are accepted considerably lower than those that are at first quoted.

## Rippling Rhymes

By Walt Mason

**Weary of Virtue.**  
 For months I save the dollars with energy sublime, and wear old shoes and collars to save another dime. For months I am a student of thrift in every guise; I am so beastly prudent I make men blink their eyes. I preach on self denial beneath my own rooftop, till life becomes a trial to all who live with me. For months I keep on raving about the penny gained; then I get sick of raving, by thrift my soul is pained. And so I blow my money as the I had no sense, and live on milk and honey, regardless of expense; I patronize the tailor and buy a roromobile and like a jingled sailor I burn the hard earned "heel. Then, tired of misbehaving, I gently simmer down, and once again I'm saving the guilder and the crown. And such a course seems dotty to people safe and sane who think such orgies naughty, and villainous and vain. But saving, tho a virtue, may soon become a fault that's bound to badly hurt you, unless you call a halt before the shining dollar to you seems so immense that all the world looks smaller than its circumference. The thrifty man is wiser than is the spend thrift jake; but oh, the greedy miser! He makes my hairs ache.

## WHITE HALL TEAM DEFEATS BEARDSTOWN

Football Game Saturday Resulted in Score of 3 to 6 in Favor of White Hall.

White Hall, Nov. 22.—The dope was badly upset on the Beardstown-White Hall game of football Saturday on Griswold park, White Hall, the score being three to six in favor of White Hall. There was not a score up to the last quarter, when Beardstown made a drop kick. White Hall scored a touchdown at the last minute of play, on a forward pass. The result was clearly astonishing to the large crowd, as Beardstown was readily picked as the winner by a large majority. Fuller of Carrollton, was referee. Roodhouse had no game, and there was quite a delegation from there. Beardstown came to White Hall with victories over Roodhouse, Springfield and Winchester.

The only other game in the county Saturday was at Carrollton, the score being Greenfield 7, Carrollton 14.

There will be a double header at White Hall Thanksgiving, the visiting teams being Roodhouse and Scottville, Roodhouse and White Hall are at present tied.

## OLD JACKSONVILLE

SOME OLD WAYS  
 By Ensley Moore

(Member Illinois State Historical Society)

Along about—or before—a hundred years ago there was little machinery, and almost everything was made by hand.

**Hats.**  
 Men who wished to be stylish, or elegant or distinguished looking used to wear tall ("stove-pipe") hats, made of beaver fur. These were generally white or light in color, and being done by hand were not uniformly exactly the same in shape. Gen. Andrew Jackson is pictured as wearing one of these head coverings and the style of real fur hats came down, perhaps, a little later than 1850.

A man named Cox had a small cabin, about where Jacksonville Female Academy, or the Episcopal church is. This was really the first house in Jacksonville—the Jordan house, where Passavant Hospital now is, being beyond the east limit of the original town. This man Cox was a hatter by trade.

And while we are on the subject, another old fashion, in work of all kinds, was the apprenticing of boys to learn trades. These boys often lived with their "masters," and they got their lodging and feed, as well as a more or less scanty supply of clothes. They could only be held till they became of age, when they were "free." Some bargains of apprenticeship were much more liberal, just as some "masters" were much more generous and kind than others.

John W. Goltra came here along in "the thirties," and he was a hatter, making some or all of his goods at first, and branching out into a hat store—the one now owned by Frank Byrns. Mr. Goltra, later on, was joined in partnership by Mr. Henry Stryker, another Jerseyman, father of the present Mr. Henry Stryker the lawyer. They were "gentlemen of the old school," pleasant in manner, and reliable in business. Fur hats, and later silk ones, were largely worn by dressy men, ministers, doctors, lawyers and politicians.

**Clothing.**  
 Along with "stove-pipes" was a certain style of masculine attire, probably derived from the blue and buff clothes of Revolutionary days — the derived "wear" coming down till the Civil War. I mention especially, or lawyers, used to affect fine blue broadcloth coats, with velvet collars and decorated "double-breasted" in front, behind and at the cuffs, with brass buttons.

A cloth or linen vest of buff—afterwards fading to white, was worn under the coat, and black "doeskin" or white linen pantaloons clad the lower part.

**WOODSON PEOPLE ARE GIVEN SURPRISE**

Mr. and Mrs. Amos Harney Given "Poultry Rush" by Their Friends — Other News From Woodson Precinct.

Woodson, Nov. 23.—Recently about fifty friends and relatives of Mr. and Mrs. Amos Harney gathered at their home near here giving them a pleasant surprise. The gathering was in the nature of a poultry rush and they were the recipients of about sixteen fine hens, which they appreciate to the fullest extent.

The evening was spent very pleasantly socially and otherwise. The guests took a good supply of fresh oysters and splendid soup was made, which was greatly enjoyed by those present.

R. D. Megginson of Jacksonville was a caller here Wednesday.

There will be a box social and entertainment at Oakland school house Monday evening Nov. 22. Mrs. J. G. Drennan is teacher of the school.

On Wednesday evening Nov. 24 there will be a box social and entertainment at the school here. It is given under the auspices of the Parent-Teachers association to help pay for the piano which was placed in the school recently.

**NEW CASES FILED**  
 The appeal case of W. W. Robertson vs. estate of J. O. Icenogle has been filed in the office of Circuit Clerk Boston for hearing at the next term of court.

The divorce suit of W. J. Bryant has also been made a matter of record. They were married April 21, 1913, and lived together until the 20th of the present month. The complainant charges his wife with infidelity and states further that she left her family of four children recently and accompanied a man to Springfield.

**BOX SUPPER**  
 Woodson school will give a box supper and program Wednesday night, Nov. 24. Everybody invited. No admission charged. Prizes offered for the most popular young lady in a voting contest and for the prettiest box.

**CARDINAL GIBBONS  
ENDORSES RED CROSS**

Well Known Churchman Asks Aid for Organization — Tells of Its Work in Peace Time.

Throughout all the thirty-nine years of its existence it has been the constant endeavor of the Red Cross to steer clear of the rocks that in the past have wrecked so many well intentioned enterprises, namely sectionalism and sectarianism.

If there is a question as to how the Red Cross has succeeded, it is answered by the venerable Cardinal of Baltimore.

This great ecclesiastical and citizen, for almost three generations has been the uncompromising champion of the doctrines of his church, and at the same time a faithful sentinel on the walls of American liberty.

In a statement to the American people, thru the medium of the Associated Press, Nov. 20, 1920, the Cardinal declared that the American Red Cross needed the support and encouragement of every American, and expressed his earnest desire that all would lend their aid to the organization in its fourth roll call.

Continuing he said: "In the development of its peace time program the American Red Cross has written another chapter in its history, perhaps less dramatic than that of war time, but none the less glorious in its spirit and its object."

Throughout the past year the Red Cross has been devoting its attention to the welfare of the people at home as well as that of foreign lands. In every field of its efforts its record bespeaks enthusiasm and desire to serve."

**NO FEAR OF  
INDIGESTION NOW**

A Host of People Seem to Thrive on What Used to Provoke Indigestion Before They Learned of Stuart's Dyspepsia Tablets.

When the stomach becomes sour, with gasiness and heartburn due to indigestion or dyspepsia relief may be had by one or two Stuart's Dyspepsia Tablets.

Simply chew them, no hot water nor any other fillers for a stomach perhaps already too much overcrowded.

These tablets supply to the stomach the alkaline effect which is what relieves the sour acid condition. They also contain pancreatin to help digest the starchy foods such as potatoes, rice, oatmeal, white flour, etc.

Get a 60 cent box of Stuart's Dyspepsia Tablets, have them on hand at all times and thus have no fear of indigestion or dyspepsia.

The fact that these tablets are on sale everywhere in the U. S. and Canada shows how generally recognized they are as an efficient aid when the dyspeptic stomach needs a little help.—Adv.

## CONSTIPATION GONE; SUFFERED 8 YEARS

Tried everything, but finally found right road to health. Gained 20 pounds.

"My wife has been troubled for eight years with constipation. She has tried almost everything on the market and has never received any benefit from any of them. In fact, they have done more harm than good. She overheard one lady telling another what Milks Emulsion had done for her. She got a bottle and has continued to use it since. She weighed 97 pounds at that time, and after taking five bottles she now weighs 117 pounds; gained 20 pounds on five live bottles; besides she is feeling fine."

"If all the people suffering from constipation knew what Milks Emulsion would do for them, you would have to enlarge your plant."—Edward McKee, 20 Eye St., N. E., Washington, D. C.

Hundreds have endured torture for years and then found that Milks Emulsion gives blessed relief and real, lasting benefit. It costs nothing to try. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Edward Clifford of Chicago was in Jacksonville for a few hours Tuesday night, a guest of Mr. and Mrs. E. C. Lambert. Mr. Clifford had been in Virginia to be present at the 30th birthday anniversary of his father, one of the long time residents of Cass county.

It is just within recent days that Mr. Clifford returned to his home in Evanston from New York City, where during the campaign he was associated with the work of the Republican national committee. He is an intimate friend of Senator Weeks, and it was to assist the senator in his campaign work that he went to the eastern field of political activity.

AT THE GRAND.

"The Girl in the Limousine" was the offering at the Grand Tuesday night. It was an A. H. Woods show of the type of "Tip in Mabel's Room" and other farces that have had long runs at the Woods theatre in Chicago. A very small audience was present last night and the play was quite a disappointment. The last act was cut to such an extent that the curtain went down shortly after 10 o'clock.

SCOUTS GET WEAPONS

Members of Boy Scout Troop No. 5 are elated over the fact that they now have guns to drill with. The new weapons are not of the dangerous sort, being made of wood. YOUR EYES TIRE EASILY

Like other parts of the body, your eyes are subject to fatigue. But if properly used, they can do an enormous amount of work without becoming tired.

Therefore, if they tire easily something is wrong, and they should have immediate attention.

Eye-weariness shows itself in blurred vision, in headaches, in inability to recognize persons at usual distance, and in slowness in changing focus, when you suddenly look up from close work.

If you have any of these symptoms let us make an examination of your eyes.

## "I NOW KNOW WHY SO MANY ENDORSE TANLAC"

Burlington Citizen Says it Has Done So Much for Him He, Too, Wants to Give it Public Approval.

"Since Tanlac has done so much for me I understand why so many people are endorsing it, and I want to add my name to the list," said Clarence Gady, 2121 S. Main street, Burlington, Iowa.

"Two years ago I was confined to my bed for a period of two weeks with the influenza, and I've been in such a terribly weak rundown condition since then I had scarcely any energy left. My appetite left me and what little I did eat would lie in my stomach undigested, so that gas pressed up against my heart, causing awful smothering sensations. I had a bitter taste in my mouth and often became so nauseated I couldn't

retain a thing on my stomach, was so nervous that it was impossible for me to get a good night's rest, for when I did manage to drop off to sleep the least noise would wake me up again.

"Well, in my search for something to help me I finally hit on Tanlac, and the way it's built up is nothing less than surprising. My appetite has come back, everything agrees with me so I'm already up ten pounds weight and am still gaining every day. My breathing is free and easy and my nerves are so steady I just sleep like a log every night. Tanlac has put me in such shape that I'm brimful of energy all the time, and I'm endorsing it because I believe I'm telling other suffering people of a medicine that surely helps them."

Tanlac is sold in Jacksonville by J. F. Shreve, and Wyle & Co., Waverly and Franklin.

center of social activity. These things are forcibly presented in the present stage of the improvements now in progress, which have gone beyond the \$10,000 mark and are now in the neighborhood of \$12,000, with possibly more things to follow. These things are not the result of a day of planning, but date back to the first meeting of a bunch of men known as Jolly Workers, who met in the church basement one evening in 1916, and there began the movement to "add another story" to the church. This meeting had for its purpose the utilization of the basement for pleasure purposes. The workers met in work attire and set about at once to making the dirt fly and enlarging the quarters with the view of providing a swimming pool and a gymnasium.

The war checked the operations, and during the interim plans were altered that would make the scheme more in keeping with the objects and purposes of the church. What is meant by this statement is that during the ministry of Dr. John Rugh the institutional church idea was a matter of earnest consideration, and the progress of the basement work during the ministry of Rev. Arthur F. Ewert showed greater possibilities for more enlarged church activities than was offered by the installation of a gymnasium.

**Ewert Starts Things.**  
Following a Sunday morning service early in the present year Rev. Ewert invited his congregation to the basement, enforcing his invitation by securely locking all exits. There he supplemented his sermon on a survey of the church situation in White Hall by outlining what he had conceived were plans for the greatest usefulness of the basement, the presentation being accompanied by plans drawn up by an architect, and were so effectively presented that something new was then and there started. A committee busied itself with details. A few months later the figures were complete, Rev. Ewert be-

## FROM A FARMER

Editor Journal:—

I see an account in your worthy paper where making money is easy on the farm.

Say, I'll bet that man was given that 80 acres he speaks of. Let me tell you one thing, old friend, I was raised on a farm, have fed cattle, raised corn and hogs. You know very well that the backbone of Morgan county is the farmer.

The store clerks sit around all week and wait for the farmer to come to town Saturday. They pay high rent, pay clerks good money and make a handsome profit.

Talk about the farmer! Look where corn is, look at the expense of raising and cribbing, figure the land at from \$300 to \$400 an acre, and see where you stand. Look at beef cows; cost 9 cents grassed all summer and then you can't get an offer. Go to your meat market and see how much pork chops you get for 75 cents and hogs going off every day, \$11 at home and no buyers.

What is the poor farmer going to do? Pay \$250 for a binder; \$100 for a set of harness, \$50 for cultivators, \$50 for a roller, pay hired men \$50 and board; pay harvest men \$5 a day; pay 10 cents for threshing. Where does he get his part? He has to pay \$50 for a suit of clothes, \$50 for an overcoat, do without socks and his poor wife must make up old clothes for the kids. The farmer seems to be the target. They cut down what he raises but don't cut down what he buys.

Still you city dads advise young people to stay on the farm. Automobile men say buy a car and keep the kids at home. Cars are the worst curse to the farmer. Saturday comes, the kids all want to go to town. All right. They all spend some money, the car needs some repairs and gas, amounting to about ten bucks. They stay for the night shows, and the cows are not milked and go dry. The hogs are not fed and lose flesh, weeds grow and choke the corn out. They raise about 25 bushels of corn on \$300 an acre.

Count your interest, taxes and up-keep, and how is the farmer going to pay for this farm? I know farmers that bought farms last year at from \$300 to \$375 an acre paid down five or eight thousand dollars, borrowed the rest. How can they make good? They will lose what they paid down, and move to town.

Respectfully Yours,  
W. WOOD,  
705 Hardin avenue.

**BALDWIN BESTS ANDY WILLIAMS**  
Outfights Chicago Man at Beardstown—Baldwin Forced Fighting—Ford Kayos Lewis

At Baldwin of this city outfought Andy Williams of Chicago in a ten round bout at Beardstown tonight. Baldwin forced the fighting thruout and kept the Chicago man on the defensive most of the time. In the opinion of newspapermen Baldwin won eight rounds by a large margin while the other two were about even.

Jimmie Ford of Milwaukee knocked out Jimmie Lewis of San Francisco in the third round of a scheduled ten round bout in the semi final.

A large crowd witnessed the bouts, many driving over from here to see Baldwin in action.

**WORLD OLD QUESTION ANSWERED AT LUTRELL'S**

One of the greatest questions which still baffle the thinking men and women of this age is asked in "The Inner Voice," the photoplay starring E. K. Lincoln, which is to be shown at the Majestic theater for Thanksgiving Day.

The story of this remarkable photo-play which is considered by critics to be among the greatest film productions ever made, bases this main premise upon the much discussed question whether a man or woman can experience the full measure of human happiness unless their lives have been consecrated to the service of some loved one.

In the answering of this question, the photo-playwright responsible for "The Inner Voice" has constructed a powerful dramatic spectacle, the background of which extends from the wild and rugged mining regions of the Northwest to the capital of American finance in Wall street.

**GAVE BOX SOCIAL AT ARCADIA SCHOOL**

Miss Nellie Smith, assisted by the pupils of her school, gave an enjoyable box social Tuesday night at the school house in Arcadia, which netted \$55.10.

An interesting program of dialogues, songs and recitations was given by members of the school. Later a vote was taken for the homeliest man present, Oscar Smith winning the prize.

There was also a vote on the prettiest young lady present, Miss Nellie Smith being the winner. A social hour followed the exercises.

**A WELL ENJOYED BANQUET**

Last evening at the Peacock Inn Messrs Hopper and Son gave their annual banquet to the employees of the store. Sixteen persons sat down to a fine menu after the good things had been disposed of a social time was enjoyed with speeches and a good time generally. As stated, this is an annual affair and shows the fine feeling that exists between the worthy firm and those in their employ.

## Farm Bureau Notes

### The First Year After Applying Rock Phosphate.

Frequently someone asks what may be expected the first season, after applying rock phosphate. On level prairie soil at the Joliet Experiment field, 1 1/2 tons of rock phosphate was applied in September as a top dressing to alfalfa which had been seeded the previous June. This phosphate was not worked into the soil, other than by rain, snow, thawing and freezing. This land had been limed, but no manure or other organic matter had been applied. The following season the increase of air-dry alfalfa hay due to rock phosphate was 140 lbs. per acre and the season following the increase due to phosphate was 2600 lbs. The rock phosphate was profitable the first years, but even more so the second.

### Use Home Grown Feeds.

In almost all sections horses can be well fed and maintained cheaper on home-grown feeds. The systems of crops rotations which are most highly thought of from the standpoint of fertility and economical use of man and horse labor furnished the most satisfactory horse feed. Good pastures are essential for growing and breeding stock. After its first rank growth, pasture helps to keep the farm work healthy and comfortable during the pasture season. Plenty of roughage of good quality is required by all classes of horses, and in the case of drafters, proper use should be made of the legumes, alfalfa and clover, as they are high in protein and mineral matter, but they should be fed in limited amounts, as they are very nutritious. Our experimental work with colts, draft horses and mules at farm work has shown that the best results are obtained when legume hays of good quality make one-half to two-thirds of the total amount of roughage fed. Carbonaceous roughages, such as timothy and prairie hays, oats straw, and corn stover, may be used satisfactorily to make up the balance of the ration.

During the late fall and winter months, much use may be made of oats straw and well-cured corn stover; these feeds are good for the horse and cheap in the ration. During the remainder of the year, mixed clover and timothy hay or alfalfa and timothy may be fed. For horse feed, alfalfa should not be cut too soon, as very leafy, fine-stemmed, pea-green hay is inclined to be watery; the stemmy, first-cutting alfalfa hay is preferable.

**Have your Thanksgiving flowers delivered from HEINL'S.**

### IMPROVEMENTS AT THE CONGREGATIONAL CHURCH

The new addition to the Congregational church is rapidly approaching completion and will be a wonderful help in every way. It is a model of convenience, workmanship and design and will be an immense addition to the facilities for doing good possessed by the society.

Scaffolding is erected in the main audience room which is to be fully re-decorated and supplied with the new and improved electric lights and when all is completed the church will have a superior plant. The worthy pastor, Rev. W. E. Collins has labored most faithfully for the welfare of his flock and the new work is an appreciation of his efforts.

### THANKSGIVING DAY PROGRAM AT WHITE HALL

White Hall, Nov. 22.—There will be the usual Thanksgiving service here next Thursday, all the churches uniting in a service at the Christian church at 10:30 o'clock. The discourse will be delivered by Rev. O. A. Carmon, pastor of the First Baptist church. The exercises to include the reading of the Thanksgiving proclamation by the president and the governor. The customary proclamation by the mayor does not appear this year. The dinner will be served in the First Baptist church.

# Multiplying Motor Miles

THE number of motor miles traveled by the average American has been increasing steadily for a decade. During 1921 this mileage again will be vastly increased.

It is estimated that 10 million automobiles and trucks will be in operation by the end of 1921. The estimate for 1920 is 7,523,000.

The most intensive use of all kinds of automotive machinery is in the 10 Middle Western states served by the Standard Oil Company (Indiana), and the major problem confronting this company is to keep its patrons supplied with all the gasoline and lubricating oils they require.

The Standard Oil Company (Indiana) is acknowledged to be the largest individual producer of gasoline in the world, and its efficient system of distribution makes it possible for the remotest citizen in the 10 states served to get his requirements of petroleum products with a minimum of effort and expense.

Advanced methods of refining, originated in the Standard Oil Company (Indiana) laboratories, have vastly increased the percentage of gasoline recoverable from crude oil.

The Company is striving to increase the yield of gasoline, and every effort is concentrated to the accomplishment of this result without sacrifice of gasoline quality. The efficiency of Red Crown Gasoline is an illustration of what has been accomplished.

The entire petroleum industry is working to multiply the motor miles which shall be available during 1921, and the Standard Oil Company (Indiana) is leading in this effort.

Prospectors are seeking to discover new fields to drill. Producers are insisting on maximum output from wells already drilled.

Waste of oil in transportation is practically eliminated, and the Standard Oil Company (Indiana) efficiency in refining has vastly increased the average recovery of motor fuel from the crude available.

The Standard Oil Company (Indiana) is co-operating in every way with automobile industry and the American motorist to multiply motor miles in 1921.

### 11 Hens Idle; Now Lay 221 Eggs A Month

Almost Gave Up Raising Chickens. Then She Tried This Plan.

"When I accepted your offer and tried Don Sung, was getting 1 or 2 eggs every other day. The best month, using Don Sung, my 11 hens laid 221 eggs. I almost quit raising chickens, but now I will raise as many as 100 a month." — Mrs. P. C. Young, Bellefonte, Pa.

You can easily start your hens laying and keep them laying even in coldest weather. To prove it, accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be cheerfully refunded.

Don Sung (Chinese for egg-laying) is a scientific tonic and conditioner. It is easily given to the feed, improves the hen's health and makes her stronger and more active. It tones up the egg-laying organs, and gets the eggs, no matter how cold or wet the weather.

You can obtain Don Sung from your druggist or poultry remedy dealer, or send \$1.00 (includes tax) for a package by mail. Purrill-Dugger Co., 214 Columbia Bldg., Indianapolis, Ind.

### STATE G. A. R. COMANDER HERE

E. N. Armstrong, state G. A. R. commander, was here with his wife yesterday visiting his daughter, a student at the Woman's college. Mr. Armstrong has no title and wants none. He carried a gun, an humble private in the great rebellion and returned to life as a good citizen. The state encampment made no mistake when they chose him as head officer of the department of Illinois. He is spending considerable time visiting various posts thruout the state, especially the weaker ones, loving after their welfare and cheering them up.

It is a bit pathetic to think that sooner or later there will be no more G. A. R. posts. It has been deemed best to refrain from affiliating with any other order though the old boys would be welcome, no doubt with the younger ones. Still, the gathering at Indianapolis showed that there is yet lots of life among the grey heads composing the Grand Army of the Republic.

**Daily Market Report****WHEAT MARKET SHOWS STRENGTH**

By Associated Press.

CHICAGO, Nov. 23.—For the first time in more than a week, the wheat market today closed at an advance. Strong export demand together with assertions that liquidation was at an end had much to do with the strength shown.

The bush was nervous 7 1/2 to 9¢ higher. With December \$1.68 to \$1.63 1/2 and March \$1.63 1/2 to \$1.64 1/2. Corn gained 2 1/2¢ to 3 1/2¢, oats 1 1/2¢ to 2 1/2¢, and provisions 2 1/2¢ to 7 1/2¢.

Buying of wheat near the close was greatly accelerated by a report that Julius Barnes, former national wheat director had expressed an opinion that prices were at the bottom. The report was a distortion of remarks by Mr. Barnes which were along optimistic lines but in which he said that he was not a bull.

However, a change in sentiment among traders was evident from the outset.

It was known export demand was brisk and millers were rapidly placing orders for flour. Besides financial conditions were easier, and sterling exchange rising. Set backs in prices also sharp at times, were brief and after the close it was estimated that sales to Europe totaled 1,500,000, about half the amount domestic grown.

Corn and oats were hoisted by the strength of wheat, support including some of the most aggressive recent sellers bought freely.

Packers buying turned the provision market upward notwithstanding that at first weakness prevailed owing to big breaks in the value of hogs.

Shipping, stock and equipment cancellations their advance in large part while the market was experiencing its secondary reaction, losses exceeding gains at the irregular close. Sales amounted to 1,100,000 shares.

Money and foreign exchange were stabilizing influences, all the day's call loans being made at the low rate of six per cent while remittances to London and continental Europe were steady when not firm.

Bonds tended mainly higher, all the liberty and victory issues, with one exception, closing at gains. Total sales (par value) \$15,300,000.

### FAMOUS INVENTOR DIES IN DECATUR

John Beall Had Wide Fame Because of Corn Sheller and Milking Machinery He Invented.

John Beall widely known as an inventor died recently at the home of his daughter in Decatur. The Review of that city gives some interesting facts from his life story:

"Mr. Beall was born in Bridgeport, O., March 19, 1830. He came to Decatur sixty-six years ago and this city has been his home ever since. His name is known thru North and South America and in many countries of Europe, wherever corn shellers and milking machinery are used. He was the inventor of the Western corn sheller. He also

had many other inventions, but much of his work was in improving inventions that had been brought out by others. Until he retired about six years ago he was the head of the Beall Improvement Company.

Was Millwright.

"Primarily Mr. Beall was a millwright and not an inventor, but when he saw the need of a certain machine he invented one and if a machine was faulty he invented a better one."

"Mr. Beall lived near Abraham Lincoln in Springfield. Just before his 90th birthday last year he told the Review of having seen Lincoln play baseball. At that time Mr. Beall said he was in Springfield in 1854, then came to Decatur and built the Hinkle and Condell mill and then returned to Springfield where he remained two or three years."

### Made Industry.

"The success of the Union Iron Works dates from the time that concern began to manufacture John Beall's corn sheller. Mr. Beall continued inventing until after he was 80 years old. One of his last machines was a grain cleaner, but most important of his inventions was his corn milking device."
